REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The claimed 1. subject matter in claims 1-10 is allowable because the arts of record fail to teach or fairly suggest the claimed "A cell searching apparatus which searches for a cell based on a received asynchronous wideband direct-sequence code division multiple access (DS/CDMA) signal in a receiver, the received signal including a data channel and a synchronous channel composed of a primary synchronization code commonly used in every cell and a secondary synchronization code indicating a code group unique to each cell, the cell searching apparatus comprising: a code group identifying unit for estimating and compensating for a frequency error between the synchronous channel and an internally generated primary synchronization code; estimating and compensating for channel characteristics which the synchronous channel has experienced, and correlating the compensated synchronous channel with available secondary synchronization codes, thereby identifying the code group; and a scrambling code identifying unit for correlating a plurality of scrambling codes belonging to the code group with the data channel, thereby obtaining a scrambling code unique to each cell, as in claim 1; and a method of acquiring a scrambling code included in a code group from an asynchronous wideband directsequence code division multiple access (DS/CDMA) signal received in an asynchronous wideband DS/CDMA receiver, the received signal including a data channel and a synchronous channel composed of a primary synchronization code commonly used in every cell and a secondary synchronization code indicating a unique code

group of each cell, the scrambling code being a spreading code unique to each cell, the method comprising: (a) estimating and compensating for a frequency error between the synchronous channel and a primary synchronization code generated by a primary synchronization code generator; (b) estimating and compensating for characteristics of a channel which the synchronous channel has experienced; (c) correlating the compensated synchronous channel with available secondary synchronization codes, thereby identifying a secondary synchronization code included in the synchronous channel; (d) correlating a plurality of scrambling codes belonging to a code group represented by the secondary synchronization code with the data channel to obtain a scrambling code unique to each cell as in claim 7."

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Information Disclosure Statement

3. Page 2-of 2 of the Information Disclosure Statement (IDS) received on July 8, 2003 was inadvertely sent to applicant without Examiner's initial and signature, the initialed and signed copy (second page) of the IDS is attached with this correspondence.

Application/Control Number: 09/758,040

Art Unit: 2631

Response to Amendment

4. Applicant's response to the outstanding issue, 112 1st paragraph rejections are persuasive and have been withdrawn.

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tesfaldet Bocure whose telephone number is (571) 272-3015. The examiner can normally be reached on Mon-Thur (7:30a-5:00p) & Mon.-Fri (7:30a-5:00p).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mohammad H Ghayour can be reached on (571) 272-3021. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
